Dear Parents,

Crothersville Community Schools is excited to announce we will be offering our students eLearning days to replace our need for traditional snow makeup days.

**The first eLearning Day will take place on:**

***Saturday the 15th from 8:00 a.m. - 12:00 p.m.***

***This day is to make up for the snow day we had earlier this year.***

All students are expected to participate in eLearning days, which are used for lost instructional days due to inclement weather. Students will be provided work that reflects the teacher's daily lesson plans to ensure learning continues in all curricular areas.

1. Students and parents will be instructed from their **teacher** on where they will access their instructional content prior to the eLearning day. Material will be accessible during the week of the eLearning day, but **must be completed outside of the classroom**. *All assignments must be turned in to the classroom teacher on the day following the eLearning day.* It is important to note, **attendance will be recorded based on student work turned in for the eLearning Day(s)**.

2. Sick days may not be used for non-illness related absences on eLearning days.

3. The elementary school computer lab will be available for both Elementary and Junior High students that need computer or internet access from 8:00 a.m. - 12:00 p.m. on eLearning Days. **STUDENTS MUST BE ACCOMPANIED BY A PARENT DURING LAB USE ON ELEARNING DAYS.**

4. Your child's teacher will be available for questions regarding their assignments during their posted office hours. **Your student's teacher will provide you with a means to contact him or her during these hours.**

5. You may email the Crothersville Tech Help Department as well by using [techhelp@crothersville.k12.in.us](mailto:techhelp@crothersville.k12.in.us).

## Example of eLearning Day

- Students will be given “office hours” that their teachers will be available to assist them outside of the normal school day.
- Students without any internet access will be able to download their assignment to their iPads prior to the elearning day. If a student without internet access at home would need internet access, the elementary computer lab will be open from 8:00 a.m. - 12:00 p.m. on the scheduled e-Learning day. **A parent must accompany their student to the school.**
- Students will then submit their work to their classroom teacher on the next school day following the e-learning day.

Many school districts in the state of Indiana are successfully using eLearning Days to fulfill inclement weather makeup day requirements. Together, with your support, Crothersville Community Schools can do the same.

Thank you!

Drew Markel and Adam Robinson  
Principals  
Crothersville Community School
